

RFQ #204 Question Log		Final posting 3-27-17				
Date Received	Name	Organization	Question:	Response:	Project Area (1-9)	Response Date
3/21/2017	Lisa Pradhan	not identified	Can an organization respond on its own to an area and also respond to another area in partnership with another organization?	Organizations are welcome to bid independently and/or partner as they see fit. Nothing in the RFQ precludes an organization from presenting their qualifications in one application directly and in a separate application as part of a partnership. As different minimum qualifications are likely, OEWD requests that the agency either submit separate response packets or carefully and completely describe how the one packet addresses appropriate MQs for each partner related to each area.	General	3/27/2017
3/21/2017	Lisa Pradhan	not identified	For the estimated cost per hour (referenced in section 5b), can we provide a schedule that provides multiple hourly wage rates (i.e. a rate for different staff levels)?	Yes.	General	3/27/2017
3/16/2017	Rebecca Coker	FMA	Will responses not inclusive of the entire scope be considered? For instance, we would not be the appropriate contractor to provide financial compliance training related to WIOA.	Yes. Applicants should ensure that they meet the minimum qualifications for at least one of the sample activities noted in the area under which they wish to be pre-qualified, however, OEWD understands that each firm may not be fully qualified to meet all the sample activities.	Fiscal Services (Area 2)	3/27/2017
3/16/2017	Rebecca Coker	FMA	Are the fiscal services existing or being designed? If the former, could you share some examples of past projects?	No particular projects or services have been identified at this time. As noted in the RFQ, OEWD is soliciting qualifications from firms that can be contacted to negotiate specific contract terms with as/if projects are identified during the 2 year active term of this procurement.	Fiscal Services (Area 2)	3/27/2017
3/16/2017	Rebecca Coker	FMA	What is the budget associated with the contract?	There is no particular budget associated with this procurement or with possible contracts resulting from it. As noted in the RFQ, OEWD is soliciting qualifications from firms that can be contacted to negotiate specific contract terms with as/if projects are identified during the 2 year active term of this procurement.	Fiscal Services (Area 2)	3/27/2017
3/16/2017	Rebecca Coker	FMA	Is "creation of financial reports and documents" the one-time design or ongoing production of reports?	This sample activity noted by the questioner may include one-time design, ongoing production, or may not be a part of the subsequently contracted project at all. As noted in the RFQ, OEWD is soliciting qualifications from firms that can be contacted to negotiate specific contract terms with as/if projects are identified during the 2 year active term of this procurement. Sample activities presented in each area are just that -- sample activities that proposers may be asked to negotiate details around should they be confirmed on the pre-qualified list and subsequently contacted to negotiate a contract for services.	Fiscal Services (Area 2)	3/27/2017
3/15/2017	Joe Lawton	Media Objectives	I didn't catch anything limiting this project to firms/designers that are considered a small business and/or LBE. Can you confirm that is the case?	Projects resulting from this RFQ are not anticipated to be limited to small businesses and/or LBE. As noted on page 2 of the RFQ document, OEWD contracts for services using a variety of funding sources. Some of the sources noted are Federal and subject to Federal Uniform Guidance bidding requirements which prohibit the use of geographic preference in bidding.	General	3/27/2017
