What I Value about WISF Membership

John J. Doherty

I love to see the creative efforts made by the professionals in OEWD, all with the goal of providing pathways to the middle class.

I also appreciate the thoughtful collaboration of WISF Board Members in furthering those goals across multiple sectors, such as medical, hospitality, Technology and the trades.

Opportunities for Collaboration

John J. Doherty

I saw a great opportunity for collaboration when I first came into office at Local 6.

With the help of then Director Patrick Mulligan, Local 6 signed the first of its kind agreement with CityBuild Academy for a 'list' trade allowing applicants credit for the written exam provided successful completion of CityBuild Academy.

The partnership with CityBuild has been a great tool for us to bring in apprentices from the community while allowing us to remain compliant with the requirements of our International affiliates, the DAS, and the DOL.

That agreement served as the model agreement for the City-Wide Public Works Project Labor Agreement, and will serve the goals of the City and SFBCTC for years to come
